

**Given that change is an on-going
aspect of a vibrant community,
what characteristics and
community values should guide
Northampton as it plans for the
future?**

During the time you have lived and/or worked in Northampton, what changes in Northampton's social, economic and or/physical environment have most affected you? (positive as well as negative changes)

What or where are there potential areas of conflict among the various goals or visions for a Sustainable Northampton?

What key actions, policies or infrastructure improvements should Northampton undertake to support a sustainable vision?

What key issues, trends, and major points of agreement or disagreement have arisen throughout the focus group?
